 AGENDA ITEM**

SUBJECT: DISCUSSION/ACTION: 1. City Hall Parking Lot Improvements	
DEPARTMENT INVOLVED: Public Services	
BACKGROUND/SUMMARY: The City of Imperial is growing. There is a need for more parking in the City Hall parking lot. In 2015, the city removed seven parking spaces and constructed a park between the Community Development building and City Hall, and landscaped and planted various cacti, trees and bushes. It is being proposed to relocate approximately 20 feet of the landscaped area including trees, cacti and bushes to other locations and keep them alive if possible. The 20 foot area would be replaced with six parking spots. Most of the park would remain. An additional (2) spaces can be created by removing or relocating the "City Rooster". If these changes are approved, a total of an additional eight (8) regular spaces and one (1) additional accessible space can be realized in the City Hall parking lot, while keeping the vegetation and most of the park area. The parking lot would be slurry sealed and re-stripped by city staff.
