

Staff Report

Agenda Item No. E-2

To: City of Imperial Traffic Commission

From: Lisa Tylenda, Planner

Date: September 26, 2018

Subject: Proposed placement of new East & West Stop Signs @ intersection of Cedro Ave. & Bernardi St.

Background

During the September 5th, 2018 City Council meeting, council directed staff to begin the process to place two (2) new stop signs at the east and west intersections of Cedro Avenue and Bernardi Street. The item has been reviewed by the Development Review Committee.

Placing new stops signs at the east and west intersection of Cedro and Bernardi Street not only would meet the vision of safety on the council's behalf, but could potentially meet and influence some of the goals within our Land Use and Circulation Element:

- **Circulation Element Goal #1 Circulation & Land Use :** Plan land uses in conjunction with the circulation system to encourage future growth in areas of higher density on transportation nodes, which will better allocate City resources and limit vehicle miles traveled.
- **Circulation Element Goal #2 Safe & Complete Streets :** Develop a multi-modal network and balanced transportation system that safely accommodates all modes of travel.
- **Circulation Element Goal #3 Circulation Efficiency:** Provide for safe and efficient movement for all modes of transportation throughout the City.
- **Circulation Element Goal #4 System Sustainability:** Attain a sustainable transportation system that can be built, operated, and maintained, within the City's existing and future resources.
